

DHANUSH KANNA M

Java Full Stack Developer

Chennai, India | +91 6381845750 | dkdhanush2023@gmail.com | linkedin.com/in/dhanushkanna03

SUMMARY

Final-year Electronics and Communication Engineering student and Java Full Stack Developer in training, with hands-on internship experience building REST APIs using Java and Spring Boot. Skilled in REST API development, CRUD operations, and frontend-backend integration, with working knowledge of HTML5, CSS3, JavaScript, and React.js fundamentals, plus MySQL for data persistence. Built an independent end-to-end project on secure healthcare data handling using text steganography. Seeking an entry-level Java Full Stack Developer role to contribute and grow as a software developer.

TECHNICAL SKILLS

Languages & Backend: Java, Spring Boot, Spring MVC (basics), REST API development
Frontend: HTML5, CSS3, JavaScript (ES6+ basics), React.js (fundamentals)
Database: MySQL (CRUD operations, schema design basics)
Tools & Practices: Git/GitHub (version control), Agile/Scrum exposure, debugging & unit testing basics

INTERNSHIP EXPERIENCE

Full Stack Java Developer Intern — Gradtwin, Chennai	<i>Mar 2026 – May 2026</i>
- Developed and supported web application features using Java and Spring Boot, contributing to REST API endpoints used for core application functionality. - Collaborated on frontend-backend integration, ensuring smooth data flow between the React-based UI and Spring Boot services. - Performed debugging, functional testing, and iterative fixes to improve application stability within an Agile development workflow. - Worked with MySQL for data storage and retrieval as part of feature development and testing.	

PROJECTS

Specialized Enciphered Access Through Text Steganography
- Designed a healthcare data security system that conceals sensitive patient information (diagnostic reports, MRI results) inside encrypted text using text steganography techniques. - Addressed unauthorized access and tampering risks in digital healthcare data sharing, applying core principles of data protection and secure transmission. - Built the project end-to-end independently, covering problem definition, encryption logic, and validation of secure data retrieval.

EDUCATION

BE Electronics and Communication Engineering	<i>2023 – 2026</i>
<i>Rajalakshmi Engineering College</i>	
Diploma in Electrical and Electronics Engineering	<i>2020 – 2023</i>
<i>PSG Polytechnic College, Coimbatore</i>	

LANGUAGES

English, Tamil
